

PURE ART

The Art of Warming

Pure Art – the Sense of Warmth

The wood crackles in the tiled stove and the heat storing ceramics with their mild infrared warmth create enjoyable coziness in the most unique way. This feeling of warmth and comfort is reinterpreted by the Ceramic Manufactory Sommerhuber as a warming 'picture' on the wall – Pure Art, the visible and tangible ceramic work of art.

Combined with a tiled stove, the heat panels Pure Art provide the possibility of an all-over home heating which combines efficiency and safety by two types of energy – wood and electricity.

Pure Art - the Lightness of Being

Ceramic warmth with its gentle long-wave infrared radiation is a healthy and especially pleasant way of heating. Pure Art is ideal for the time in-between the seasons or to give your favorite place that special feeling of coziness.

As easy to install as a TV and so relaxing and soothing as the mild warmth of a tiled stove. But actually Pure Art is a unique piece of art individually manufactured for you by the Ceramic Manufactory Sommerhuber.
